

Professional Cleaning Services Sealed Request for Quotes

Underground Stormwater Unit Cleaning

November 14, 2024

Good Afternoon:

The North Augusta Stormwater Department has a need for industrial jetter-vacuum services at City underground stormwater detention units and underground CDS treatment units. We are looking for a company that can provide the equipment and expertise to clean out and properly dispose of collected storm water related debris within these units once per year for the years 2025 and also 2026.

Attached is a map of each of the units along the Savannah Riverfront with the depth of each unit shown. We also have three newer underground detention facilities at our new public safety facilities listed for pricing as well. Not all units will require cleaning, but we would like a bid for each unit shown one on the bid sheet.

We are considering a contract for the services for a 2-year period. Whether we can enter into a contract will depend on the total costs for the services. If the bids exceed the allowance for these services, a contract may not be awarded for this work.

I have attached a quote sheet (it is a fillable form). **You MUST fill out the quote sheet with your proposed bid and place it in a sealed envelope. The sealed bids must be delivered or mailed to:**

**City of North Augusta
Stormwater Management Department
100 Georgia Avenue
North Augusta, SC 29841**

All sealed bids must be delivered or mailed to this office and arrive to the bid opening by Monday, November 25th by 3 p.m.

Bids will be opened Monday, November 25th at 3:15 p.m.

Bids shall not be accepted from a vendor or contractor who is delinquent in the payment of taxes, business licenses, utility bills, or other money owed the city.

If you have any questions, they must be provided in writing. You must email your questions via email only to:

Michaela Canady: mcanady@northaugustasc.gov.

Thank you

City of North Augusta
Riverfront CDS and ADS Units Only
